Why HubC3

Our technology solutions empower Energy and Maritime industries with Connectivity, Continuity, and Care. The energy and maritime sectors are crucial for global trade and power generation. However, traditional workforce management methods struggle to meet the evolving needs of these complex industries. With challenges like a shrinking skilled labor pool, safety concerns, and the pressing shift towards sustainability, there is a clear need for innovative solutions. HubC3 transforms workforce management for operational excellence by harnessing Connectivity, Continuity, and Care. Our technology solutions empower enterprises with people-centric approaches, fostering seamless communication and collaboration akin to interconnected energy systems.

About us

Headquartered in Dubai with offices in Singapore and Mumbai, HubC3 is your strategic ally in revolutionizing workforce management through cutting-edge cloud-based software/platform solutions and advanced analytics. Grounded in real operational excellence, our innovative tech solutions seamlessly connect every aspect of your manpower management process, helping to streamline operations, enhance compliance, and prioritize the well-being of your workforce.

A comprehensive lifecycle approach

JourneyXPro, our powerful platform enhances performance, profitability, and safety by integrating with all stages of the crew management lifecycle. We prioritize every aspect from recruitment to offboarding, ensuring optimal support and efficiency for your team.
